Discussion Questions

1 How do you recognize the voice of God in your own life? What are some ways God often speaks to you if we would but listen? Can you describe a time when you heard the voice of God in your own life?

2 Trusting in the goodness of God, what are some ways you might interpret God's silence in your life? What are some ways God might actually be speaking to you through silence?

3 What might it look like for you to listen for God's voice this week? What would it look like to listen on His terms rather than on your own?
